

SENIOR INSTALLATION ENGINEER

pure av
integrated audio visual solutions

ABOUT THE ROLE

Pure Audio Visual Ltd is an award-winning audio visual (AV) integrator serving clients across the UK, Europe, and other parts of the World. Following a sustained period of successful growth and increased demand for our services, we are looking to recruit new talent into the organisation.

We have an opportunity for an experienced **Senior Installation Engineer** to join our team. Experience working with brands such as Crestron, AMX and Extron is essential. Based out of our Head Office in Preston, the successful candidate will report into the Installation Manager. Although the role will be based primarily in the North of England, some national and international travel may be required. Operating as part of a busy team, the role involves the delivery of audio visual services to a wide range of customers. Our sectors of activity include higher education, health, hospitality, emergency services, museum and corporate.

The successful candidate will have excellent knowledge of how to wire, install and configure a variety of AV systems to a high standard.

MAIN DUTIES

Candidates should possess the following qualities:

- A minimum of 2 years' practical experience in an audio visual installation role
- Good technical knowledge of audio visual systems (including RS232)
- Excellent soldering, crimp and terminating skills
- Experience in creative fault-finding and preventative measures
- Concise reporting on daily activities, for submission to project managers
- Good communication skills both verbal and written.
- The drive to work to the highest quality standards with attention to detail ensuring that works are completed thoroughly, never walking away from a problem.
- Represent the Company in a professional and courteous manner and present a positive image to the customer
- Be organised and flexible with the ability to approach different types of tasks during the working day
- Be able to prioritise and work under pressure

Desirable skills for the role include:

- IPAF, PASMA, CTS-I accredited
- Crestron CTI-P101 programming certified
- CSCS/ECS card holder
- Experience of audio visual control systems

All applicants must be eligible to work in the UK or hold a valid UK permit (no sponsorship offered), hold a full and clean UK driving license, up to date passport and be willing/able to travel both within the UK and overseas when required. Applicants must be fluent in English.

This is a fantastic opportunity to join a well-respected, friendly and progressive company which offers great opportunities to build a career and progress. Package is dependent on experience.

ABOUT PURE AV

Preston based integrator Pure Audio Visual Ltd provides audio visual services including design, programming, installation and support to clients across the UK and Europe.

Named in 2020 as Integrator of the Year in the prestigious AV News Awards; the company is recognised as a leader within its field. Examples of the work that earned Pure AV the title can be seen in action at Universities, businesses and public institutions across the country. These solutions help people to harness technology to work, communicate and collaborate more effectively.

Employing over 60 staff across two office locations (Preston and Halifax), we continue to invest in the ongoing development of the organisation. For more information about what we do, please visit www.pureav.co.uk.

HOW TO APPLY

If you are interested in applying for the role, please email your CV and covering letter to Jon-Lee Herbert at jobs@pureav.co.uk.
